

SPORT

EMERYVILLE RESULTS

Oakland, Cal. Jan. 16.—Booger Red, one of the most consistent horses at the track, won the Andrew Eelling stake at Emeryville today at odds of 25 to 1. With the exception of being fancied to some extent for place and show, the son of Rancocas had little support.

Chapultepec, who arrived from Arcadia an hour before the race, ruled a 3 to 5 favorite with Roseben next in demand. Sullivan took Booger Red to the front and was never headed, winning by a head from Roseben, the pair having raced together all through the stretch. Results:

First race, six furlongs, selling—Distributor, 106 (Glass) 10 to 1, won; San Gil, 102 (Walsh) 6 to 1, second; Berryessa, 106 (McIntyre) 6 to 1, third. Time, 1:18 4-5.

Second race, six furlongs, selling—Mabel Hollander, 101 (Sullivan) 9 to 1, won; Miss Delaney, 102 (Van Dusen) 3 to 1, second; Marion Rose, 103 (McCarthy) 11 to 2, third. Time, 1:16 4-5.

Third race, three and a half furlongs, purse—Gilbert Rose, 114 (Norton) 1 to 4, won; Indian Maid, 101 (McCarthy) 15 to 1, second; Old Mexico, 105 (Gilbert) 60 to 1, third. Time, 1:10.

Fourth race, six and a half furlongs, Andrew selling stakes, value to winner, \$3,000—Booger Red, 100 (Sullivan) 25 to 1, won; Roseben, 119 (Gibbs) 13 to 1, second; Bellwether, 102 (Gilbert) 12 to 1, third. Time, 1:22.

Fifth race, one mile and 70 yards, selling—Yankee Daughter, 94 (Walsh) 5 to 1, won; Dainty Belle, 105 (Taplin) 9 to 2, second; Katie Powers, 103 (Glasner) 13 to 1, third. Time, 1:50.

Sixth race, six furlongs, selling—Burleigh, 112 (Gargan) 5 to 1, won; Deutchland, 114 (Powers) 21 to 5, second; Tom Reid, 96 (Woods) 9 to 1, third. Time, 1:16 1-5.

POWER AND LIGHT

I want the public of Ogden to know that while the Utah Light & Railway Company is selling power for the varied purposes into which that subtle fluid enters, and furnishes electricity for different methods of illumination, such as the Carbon Incandescent Lamp, the Tungsten Steel Filament, Nixol Glow and the Inclosed Arc, and to assist our patrons and the public we furnish, free of charge, engineering advice for installing power and artistic designing for illumination in stores and public buildings. We also furnish for our patrons an electrical expert during the day and up to midnight, who attends to all complaints and interruptions of service occasioned by blown fuses and other minor troubles. Remember that the advice of our designers and engineers is at your service for the asking. Whenever you are in need of signs, windows, space or decorative lighting, call on us.

UTAH LIGHT & RY. CO.
D. DECKER, LOCAL MANAGER.

Did You Ever See a Baldheaded Indian?

USE SAGE BRUSH HAIR TONIC—NATURE'S REMEDY FOR DANDRUFF AND FALLING HAIR.

Prepared from the leaves of the Western Wild Sage (Sage Brush), to which has been added the best germicide known to science and enough perfume to make it an ideal dressing for the hair. Undoubtedly the best hair tonic ever discovered.

GUARANTEED TO DO ALL THAT IS CLAIMED FOR IT OR YOUR MONEY REFUND.

Who ever heard of guaranteeing a hair tonic before? But that is just what the manufacturers of this preparation are doing.

BODIES OF CHENEYS FOUND

After 18 Days, They Are Taken From Messina's Ruins by Sailors

Messina, Friday, Jan. 15.—After lying buried in the ruins of the consulate at Messina for eighteen days, the bodies of Arthur S. Cheney, the American consul, and his wife, were recovered at 2 o'clock this afternoon by a detachment of sailors from the battleship Illinois.

The bodies were recovered in what had evidently been the bedroom of the Cheneys. They were found lying side by side. Mr. Cheney was identified by a slight physical deformity, while the body of his wife was recognized by a locket and a wedding ring. There is reason to believe that death overtook the unfortunate couple while they were asleep.

No less than 400 men from the Illinois have been engaged in the work of excavation.

As soon as they were unearthed, the bodies were placed in coffins and conveyed aboard the supply ship Culego, which left here at once for Naples.

Washington, Jan. 16.—The bodies of the American consul Arthur S. Cheney, and Mrs. Cheney, were found in the ruins of the American consulate at Messina yesterday afternoon, by the sailors of the American battleship, Illinois, which arrived at Messina yesterday from Suez. Captain Bowyer of the Illinois had been instructed by Admiral Sperry, while en route from Suez, to Malta, to proceed to Messina and endeavor to recover the bodies. When Captain Bowyer reached Messina yesterday, he sent a number of sailors ashore for the purpose of excavating the ruins. They were successful in finding the bodies during the afternoon. The bodies were prepared for shipment and taken aboard the American supply ship Culego, which will carry them to Naples. Arrangements are being made for the shipment of the bodies to the United States.

Having accomplished her mission at Messina, the Illinois has returned to Malta.

IMPOSSIBLE TO ACCURATELY ESTIMATE NUMBER OF DEAD

Messina, Jan. 16.—An estimate of the dead in Messina as a result of the catastrophe of December 28, made by Stuart K. Lupton, the American vice-consul on behalf of the American embassy at Rome, places the number at 90,000. Mr. Lupton estimates also that there are still about 10,000 people in the city. The work of getting information concerning individuals who were in Messina at the time of the earthquake, is extremely difficult, as there undoubtedly still are tens of thousands under the ruins and others of thousands have scattered themselves throughout Sicily and the peninsula. The people still in Messina are camping out in the outskirts and it has been impossible to take any census of them.

Mr. Lupton left today for Catania to establish an American consulate there.

EIGHTY-TWO PERSONS ARE ARRESTED FOR STEALING

Messina, Jan. 16.—Eighty-two persons have been arrested up to the present time for stealing during the confusion incident to the earthquake disaster. They will be tried by martial law.

State Insurance.

Consul-Gen. John P. Bray, of Melbourne, reports that the government of the state of Victoria is about to undertake the experiment of state insurance in connection with the houses of settlers, which the government has erected on a scheme by which repayments by the occupants are extended over long periods. It is estimated that the settlers will have to pay to the government for the state insurance of the houses what is equal to an annual premium of not much more than one-fourth per cent. upon the value of the property, whereas if companies did the insuring the men would be according to departmental estimates have to pay at the rate of between one-half and 1 per cent.

They Prayed.

Prayers as applied to a church social may be the cause of splitting a congregation, at Rawson, near here. Several weeks ago plans were laid for giving a social to raise funds to apply on the church's debt. One class favored the social while the other did not. The majority ruled and the social was arranged for.

The defeated ones said they would pray for rain so that the social would have to be postponed. They prayed. Almost two inches of rain fell, causing the postponement of the social. The Epworth League was back of the enterprise. —Pittsburg Dispatch.

Preserving Fish in Paper.

Some interesting experiments in connection with the carriage of fish were recently made by M. Alfred Golden, president of the fishery section of the Brussels chamber of commerce. Soles caught by Ostend boats off the Portuguese coast were packed in a special vegetable paper, and after 16 days appeared in much better condition, as regards both freshness and flavor, than those packed in ice. This paper was recommended at the Ostend fishery congress of 1907 by Herr Soling, inspector of Danish fisheries. It costs little and takes up but small space. —Harper's Weekly.

THE BRIDAL SHOWER.

For the bride-elect, who will be married in January her boy of friends

arranged to purchase appropriate articles, one for each month of her first year. For January there was a good cook book with all verse appropos the need of just such a book in the household. February is a good month when a woman likes to make fancy work, so the little handkerchief bag was filled with the trifles needed in the work basket. March brought out a fan. Of course April was suggestive of house cleaning and the kitchen apron, bar of soap and dust pan were very appropriate articles. So these gifts were all cleverly arranged and while there was not an expensive article among them, they provided a happy surprise.

NICKEL THEATERS MAY BE CLOSED IN WINDY CITY

Chicago, Jan. 16.—Nearly one hundred five-cent theaters may be closed in the future by the police because of the failure of the operators managing the moving picture machines to take out licenses. The time limit has expired but a little grace will probably be extended to those who did not get a chance to attend an examination.

CHICAGO HAS A CLEAR CASE OF GRAFT

CITY DID NOT ACCEPT THE LOWEST BID FOR REPAIRS.

The City Is Out \$96,501 and the Law Department Offers No Hope of Help.

Chicago, Jan. 16.—Commissioner of Public Works Hanberg has discovered that, within the year, the city has paid, or contracted to pay \$315,111 for street repair work, whereas, if it had accepted another bid, the total cost would have been \$218,610.

What makes it worse for the commissioner's feelings is that most of the money comes out of the wheel tax receipts, with which Mayor Busse desired to make the best showing possible.

Such a state of affairs is a result of probably the oldest trick known to street paving work. It was so transparent in this case that it would seem that the bid of the winning contractor would, on its face, have been a danger signal to every one concerned. But the bid went through and the city is out \$96,501 as a consequence. Moreover, the law department can offer the commissioner no hope of help.

The trick consisted in a composite bid, of bidding low on one item and high on another, so as to make the average lower than that of competitors. But the low bid is one on which little work is done, and the high bid is for work on which a great deal is done, with the result that when the bills come in the supposed low bidder receives far more money than would have to be paid in case the bids had been divided and the contract awarded the low man in each class. The trick has been worked more than once in the city hall and the cons have held that as long as the work was done the city must pay according to the terms of its contract.

He Kept His Word.

A traveling man stopped at a little town in Arkansas and while there he made inquiries of the postmaster as to the integrity and honesty of a certain doctor who lived in the next county.

"What sort of a man is Dr. Briggs?" he queried. "Is he a man that can be trusted—a good doctor?"

"Well," answered the postmaster, thoughtfully, "that depends. He's been doctorin' round here for some years now—ain't doin' much lately, though. Seems he was sent for to go to see of Miss Henderson, what's been dyin' for gold on 30 year. Ol' lady had the no-rakly pretty bad. Doc. he gives her a dose of laudanum an' he says: 'Miss Henderson, you'll go to sleep, now, an' you won't be bothered with the no-rakly no mo'."

"She went to sleep; that was last May, an' it's gittin' to be fall now. She ain't waked up yet an' she ain't never been bothered with the no-rakly, either. As a doctor, I guess Briggs ain't much; but he always keeps his word, sir, always."

The "Dark Day."

The noted dark day of May 19, 1780, was noticeable all over New England. The darkness began about ten o'clock in the forenoon and lasted in many places throughout the rest of the day. The candles had to be lighted at midday in the houses, and many pious people, believing that the world was coming to an end, rushed to the churches. This was the day of the famous speech of the Connecticut legislator. A member having made a motion to adjourn the legislature, a Mr. Davenport arose and said: "Mr. Speaker, it is either the day of judgment, or it is not. If it is not, I wish to be found doing my duty. I come that the candles be brought, and that we proceed to business." —New York American.

Good Reply.

For 20 long minutes the city man had watched the country lad bait his hooks and pull in the speckled beauties of the brook.

"What you doin', bub?" he drawled, with a yawn. "Fishing?"

"Naw," snapped the exasperated angler.

"Ain't fishing? What are you doin', then?"

"Cutting ice, mister; cutting ice. Anything else you want to know just go up to the railroad station and ask for the information bureau."

And, mopping the perspiration from his brow, the youngster continued fishing without another word.

Opposed to Cremation.

Belgium officially frowns on cremation.

O'KEEFE FOUGHT BY GORE

Considerable Opposition Aroused by Blind Senator

Washington, Jan. 16.—Considerable opposition to the confirmation of Daniel O'Keefe of Michigan, who was nominated by the President on December 1 to succeed the late Frank Sargent as commissioner general of immigration has developed in the senate under the leadership of Mr. Gore, of Oklahoma.

The objection to confirmation advanced by Mr. Gore is the fact that a report has been made to him by certain labor leaders that Mr. O'Keefe received the appointment as a reward for breaking with President Gompers of the American Federation of Labor during the recent presidential campaign.

Some labor leaders have gone so far as to send letters to members of congress charging that Mr. O'Keefe as a prominent labor leader himself has been a traitor to the cause of labor. Several efforts have been made by Senator Dillingham, chairman of the committee on immigration, to obtain action on this nomination in committee, but thus far he has failed. Senator Gore has given notice of a desire to appear before the immigration committee and to argue his objections to O'Keefe's confirmation.

THAW TO BE GIVEN TRIAL FOR HIS SANITY

CASE WILL BE HEARD BY A NEW YORK CITY JUDGE.

His Mother Petitioned For Trial by Jury, But Justice Tompkins Denied That Part of Request.

Nyack, N. Y., Jan. 16.—Harry K. Thaw will be given a trial in New York City to determine whether he is sane or insane. An order to that effect was issued today by Justice A. S. Tompkins, to whom an appeal, asking for a trial, was made by Mrs. Wm. Thaw, Harry's mother. Under Justice Tompkins' direction Thaw will not be given a trial by jury. Mrs. Thaw's petition requested such a hearing, but as Justice Mills had already refused to grant a similar request, Justice Tompkins denied that portion of the petition and ordered that the case be heard before a court or judge of New York City, with or without the assistance of a referee, as the trial judge may decide.

The questions presented to Justice Tompkins for his decision include the validity of the commitment, the present mental condition of the prisoner, and whether it is now safe for him to be at large. Justice Tompkins decided that he will not consider the question of validity, as that has already been passed upon adversely by Justices Morschauser and Mills, and is now on appeal to the appellate division.

The question of Thaw's present sanity, Justice Tompkins says, is entitled to be fairly tried and determined.

A Strong Point Against Him.

"You say you have known this defendant for many years?"

"Yes, ever since he was a boy."

"Do you consider him to be of sound mind?"

"Well, I don't want to say anything against him if it isn't necessary."

"But you are under oath to speak the truth. Have you ever observed in his actions anything that would lead you to the belief he was weak mentally?"

"He married the daughter of a poor man when he might have become the son-in-law of a wealthy manufacturer who would have made him general manager of the business."

Terrors of War.

A sweet young thing was being shown over one of the battlefields.

"What is the captain's name?" she asked incidentally of the marine who had been detailed to show her around.

"Mitchell, Capt. Mitchell," replied the marine; and he added, by way of historical interest, "during the Spanish-American war it was Converse, but now it is Mitchell."

"Oh," said the s. y. t., gazing at him with all the animation of boarding school intelligence, "do they change their names on account of war?"

The marine fell overboard, and all of the crew within hearing jumped in to rescue him.

Nice Work for Hubby.

"I was calling on a friend to-day," said a woman, "when she showed me some beautifully embroidered pillow tops. The work of one of them was particularly fine. It represented a bunch of roses and each flower was shaded."

"When I had admired the different pieces my friend said: 'Who do you think did that?'"

"Why," I answered, "your daughter, I suppose."

"No," she said, "it's my husband. He is not fond of reading, and when he finishes his newspaper in the evening he takes up embroidery to pass the time."

S.S.S. CURES OLD SORES

We want to show you in this short, but honest and reasonable talk, how and why S. S. S. cures Old Sores. We do not claim that S. S. S. works wonders, but we do know it will cure sores and ulcers, and its record of forty years past abundantly justifies this confidence.

Any old sore shows an unhealthy and impure condition of the blood. It is a diseased condition of the flesh at that particular spot, caused and kept inflamed and irritated by a continual discharge into it of unhealthy matter from the circulation. In various ways the blood becomes contaminated and polluted. A long spell of fever, or other sickness, breeds disease germs in the system; the failure of nature's eliminative members to remove the waste and refuse matters of the body, the excessive use of minerals in certain diseases, infected wounds, bites and stings of insects, etc., all contaminate the blood with morbid matter and germs which sooner or later manifest their presence by a sore or ulcer which refuses to heal under the ordinary treatment of local applications.

External treatment can never cure a chronic sore or ulcer, because it does not reach the blood. The place will remain open as long as it is used as a drainage for the impurity which is in the blood, and in addition to the worry and anxiety caused by an old sore, there is always danger of its becoming cancerous, if a cure is not effected. Purify the blood, and nourish the flesh with a rich, healthy circulation, and then the place will heal of its own accord.

S. S. S. cures old sores by removing the causes which produce them. It goes down into the circulation, drives out all impurities and poisons, and by nourishing the flesh with rich, pure blood causes the place to heal naturally and permanently. S. S. S. does not make a surface cure, but, being the greatest of all blood purifiers, it begins at the bottom and by rebuilding broken down tissue, and supplying healthful, healing qualities to the circulation, causes the place to fill in with firm, healthy flesh, while it steadily but surely removes the cause and effects a permanent cure. The sore cannot remain when the blood is pure, and S. S. S. will thoroughly purify the blood. Book on Sores and Ulcers and any medical advice free to all who write.

S. S. S. is for sale at all drug stores.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

The Bride Fell Down.

Sadly funny was a little drama at a recent swell wedding. "The bride," whispers a woman who attended, "was costumed after the approved director-fashion, which calls for corsets down to the knees, a collar up to the eyebrows, and tight sleeves that pin the arms to one's side. She could not manage her long skirt and she fell flat as she tried to reach the chancel tier father, who was giving her away, was unprepared for the fall and was dragged down by his white satin and lace daughter." This looks bad, not for the bride, but for the costume. The director's woman simply can't sit down, and when she walks she is in danger of performing that clumsy and sometimes dangerous feat known as "falling all over yourself."

Camels and Campbells.

An Irishman and a Scotchman were discussing the horrors of living in a prohibition state, when the Irishman remarked: "Sure, an' you might get used to it after awhile. Ye know they say a camel can go eight days without drinkin'."

"Hoot, mon!" retorted the other. "It's little ye know about the Campbells when ye say that. There is no one o' them could go eight hours w/out a drop o' something!"

He Had the Idea.

A Chinaman who had been robbed by a woman on the Bowery was trying to describe her at the police station.

"Can't you remember how she was dressed?" asked the lieutenant at the desk. "What sort of a hat did she wear?"

For a moment John seemed puzzled. Then his face brightened.

"He dead—she glad," he confidently announced.

And now the police are looking for a woman with a Merry Widow hat—Everybody's Magazine.

Entitled to a Day Off.

Experience has proved that after 120,000 miles have been rooled off a locomotive is entitled to a layoff and to hospital treatment. Steel will not stand the thunderous jar and vibration that shakes the 194 tons dead weight of a locomotive making 60 to 70 miles an hour. Figured at 60 miles an hour, even a locomotive must be 2,000 hours running to complete the mileage stunt. Then, no matter how clean her record of behavior, she must go in for an overhauling generally.

Women in Journalism.

Ellen Farley writes in the Bohemian Magazine on "Women in Journalism." In her opinion, no woman should enter the profession who has not, in addition to journalistic talents, health, determination, and strength of character. For the woman adapted to the work, however, there is enlargement of the spirit in the newspaper world. Of course, her life is not all talkative prima donnas and good-natured literary men.

LEGAL

NOTICE

The stockholders of the Oregon Lumber company will meet at the company's office in Ogden, Utah, at 2 p. m. on Monday, January 25, 1930, to elect directors for the ensuing year, and to transact any other business that may properly be done at said meeting.

H. H. ROLAPP, Secretary.

NOTICE

Regular annual meeting of the shareholders of the Superior Brick, Tile and Milling Co., will be held at their office, 238 1/2 Washington avenue, at Ogden, Utah, Tuesday, the 19th day of January, 1930, at 11 o'clock a. m. for the purpose of electing directors to serve for the ensuing year and for the transaction of such other business as may properly come before the meeting.

D. C. LAWSON, Secretary.

Ogden, Utah, Jan. 8, 1930.

For the Next 60 Days

We will make a special contract covering a period of 11 years for our "Carey Act" land and perpetual water rights, in Sunny Millard County, Utah.

11 YEARLY PAYMENTS \$40.50 PER ACRE MONTHLY PAYMENTS

By paying \$50.00 down you may select forty acres choice land and pay balance monthly, or yearly. The second and third year payments are figured at two dollars an acre. Choice bench lands. Absolutely the best water rights in Utah. Crops this year. Young man's your chance to become Independent. Investigation earnestly invited. Information from
